PROFESSIONAL SUMMARY

B.Tech Computer Science (2026) graduate with hands-on experience in Python, Django, Flask, and React.js. Built and deployed multiple end-to-end full-stack web applications using HTML, CSS, JavaScript, and MongoDB. Strong foundation in data structures, SQL databases, and version control (Git/GitHub). Seeking an entry-level Software Developer / Python Developer role to deliver scalable, efficient solutions and grow within a dynamic engineering team.

TECHNICAL SKILLS

Programming Languages: Python, JavaScript, Java (Basics), SQL

Backend Frameworks: Django, Flask

Frontend Technologies: React.js, HTML5, CSS3, JavaScript

Databases: MySQL, SQL, MongoDB

Tools & Platforms: Git, GitHub, VS Code, Linux, Web Speech API

Core Concepts: Object-Oriented Programming, Data Structures, Web Development, Software Development Lifecycle

PROJECTS

AI-Based Road Safety Hazard Forecasting System

Python, Flask

- Designed and developed a prediction model to forecast road accident risks and hazard zones.
- Processed large transportation datasets to improve forecasting accuracy and reliability.
- Built a Flask-based web interface to deliver real-time hazard forecasts to end users.

GitHub: [AI Based Road Safety Project](#)

Real-Time Fraud Detection System

Python, SQL

- Built a system to detect fraudulent financial transactions in real time.
- Implemented data processing pipelines to identify suspicious transaction patterns.
- Queried and managed transaction datasets using SQL for analysis and validation.

GitHub: [Fraud-Transaction-Detection-Project](#)

WhatsApp Clone with Voice-Enabled Contact Search

JavaScript, MongoDB, Web Speech API

- Developed a web-based application enabling voice-enabled contact search using the Web Speech API.
- Implemented real-time filtering and contact actions such as call and message triggers.
- Built the backend with MongoDB, improving accessibility through hands-free voice interaction.

GitHub: [Whatsapp Clone](#)

Personal Portfolio Website

HTML, CSS, JavaScript, Responsive Design

- Developed a personal portfolio website to showcase projects, technical skills, and professional background.
- Implemented fully responsive design ensuring compatibility across desktop, tablet, and mobile devices.

EDUCATION

B.Tech, Computer Science Engineering — TKR Engineering College

2022 – 2026

Intermediate (Class XII) — KLN Junior College

2022 | 67%

CERTIFICATIONS

- Python Programming
- Django Web Framework
- Introduction to JavaScript
- Git & GitHub Version Control

LANGUAGES

English, Telugu, Hindi

STRENGTHS

- Strong Problem-Solving and Analytical Thinking
- Quick Learner and Highly Adaptable
- Effective Team Collaboration and Communication
- Passionate About Software Development and Continuous Learning
