Location: Hyderabad, Telangana

Career Objective

Motivated and detail-oriented B.Tech Computer Science student seeking an entry-level software developer role to apply skills in Python, Django, and web technologies. Passionate about building scalable applications and continuously learning new technologies.

Education

- B.Tech – TKR Engineering College
Graduation Year: 2026
- Intermediate (Class XII)-KLN Junior College.
Year of Completion: 2022
Percentage: 67%
- SSC (Class X)-DR. AKR's Inspire School.
Year of Completion: 2020
Percentage: 100%

Technical Skills

- Programming: Python, javascript, java(basics)
- Web Technologies: HTML, CSS, Django, FastAPI
- Databases: SQL
- Version Control: Git, GitHub, vs code

Projects

➤ Portfolio Website

Developed a personal portfolio website to showcase projects, skills, and technical background. Built using modern web technologies with responsive design for multiple devices.

➤ Smart Voice Search for Contact Management (WhatsApp Clone)

Developed a web-based application with voice-enabled contact search using Web Speech API. Implemented real-time filtering and contact actions (call/message). Built using HTML, CSS, JavaScript, Node.js, and MongoDB. Improved accessibility with hands-free voice interaction.

➤ AI-Based Road Safety Hazard Forecasting System

Built a machine learning model to predict road accident risks.
Used Random Forest and data mining techniques for analysis.
Processed large datasets and improved prediction accuracy

➤ Real-Time Fraud Detection System

Built a machine learning-based system to detect fraudulent financial transactions in real time. Implemented data processing and predictive models to identify suspicious patterns.

Languages

English
Telugu
Hindi

Strengths

- Quick learner and adaptable.
- Strong problem-solving skills.
- Good team collaboration.
- Passion for software development

Declaration

I hereby declare that the above information is true to the best of my knowledge.
